- GIT, NodeJS, Visual Studio, Virtual Box

EXPERIENCE

APRIL 2021 – SEPTEMBER 2021

JUNIOR SYSTEMS DEVELOPER, THE CO-OPERATORS
- Collaborated with a team of 7 students to add features and make improvements to Cooperators insurance web application using Java and Guidewire's InsuranceSuite.
- Helped upgrade Guidewire InsuranceSuite from 7.0 to 10.0 by fixing various code flaws to increase efficiency in the developer workflow.

SEPTEMBER 2021 – DECEMBER 2021

SOFTWARE DEVELOPER, NCR
- Developed multiple REST APIs to allow the user to make different types of transactions such as deposits or withdrawals on their account using Java and NCR's API toolkit.
- Created integration and end to end tests using Cucumber and Spring Boot to ensure the API's meet NCR's quality standards

MAY 2022 – SEPTEMBER 2022

FULL STACK DEVELOPER, NCR
- Worked in a team of 6 to add new features, fix bugs, and make general improvements to NCR's API Toolkit.
- Improved API Toolkit's UI by adding various quality of life features such as the ability to copy all current variables to your clipboard using ReactJS.
- Worked on API Toolkits Java and Spring Boot backend and added various improvements such as asynchronous security caching and warmup.
